

# RED DOG

# Enzyme Digestant & Drain Opener

## Product Description

This powerful product is the first of its kind to combine the rapid waste digesting abilities of bacteria with the activity of free enzymes. When added to organic waste, the enzymes immediately begin to breakup complex organic waste molecules while eliminating odors. Contains a high concentration of free enzymes including protease, amylase, lipase, and cellulase. Safe to use, contains no harsh acids or caustics, will not harm fixtures or plumbing.

## Directions For Use

**For Unclogging Sinks, Toilets, Floor Drains, Urinals, Or Any Slow Plumbing** - Pour 3 to 4 ounces of product into every drain once per week to keep plumbing open and free-flowing. For best results treat at the end of the day or at a period of lowest flow to allow bacteria to establish themselves along plumbing walls.

**Grease Trap Maintenance** - Regular use of this product will dramatically reduce the frequency of grease trap pump-out, while controlling odors. For initial treatment add 1 quart directly to the trap through drain. For Maintaining: Add 24 to 32 ounces on a weekly basis.

**Septic Tanks** - Add 1 gallon of product for the initial treatment of a typical septic tank (750 gal. capacity). To keep septic tank and leach bed in peak operating condition, add one quart per month.

**Lift Stations** - Add 1 quart of product to 500 cubic feet directly into wet well.
